Portfolio: <https://portfolio-fo5a9tvj7-stolenfallen1.vercel.app/>

A young professional with expertise in web development, mobile development, and web design. Proficient in HTML, CSS, JS, TS, PHP, React, React Native, Tailwind, Bootstrap, MySQL, Firebase, MongoDB, Node.js, Express.js, API, Postman, Git, and GitHub. Seeking opportunities to apply skills in creating intuitive and visually appealing applications. Open to new opportunities in the field of technology.

Professional Experience

UI Developer DNA Micro, Cebu, Central Visayas, Philippines | January 2023- April 2023

- As a UI / Front-end Developer Intern, I was tasked to develop front-end components using React JS and React Native.

Education

Bachelor of Science - BS in Information Technology University of Southern Philippines | August 2020- June 2023

High School Major in TVL Strand Abellana National School at Osmena Blvd. Cebu City | June 2012- April 2018

Skills and Tools

- Web Design (Figma and Adobe XD)
- Front End Development (HTML, CSS, JS, TS, React, Bootstrap and Tailwind)
- Back End Development (PHP, Node JS, Express JS, Firebase, MongoDB and Postman)
- Mobile Development (React Native and Native Wind)

Accomplishments

Silver Award Best Research Study College of Computer Studies in USPF | December 2022

- This award was given to me after our final thesis defense, it shows that my final project entitled DIGIBRI was able to convince and satisfy the panel.

Bronze Award Best Research Logo College of Computer Studies | December 2022

- This award was given to me after our final thesis defense as the system / application has one of the best and unique logo's presented.

Winner Best Podium Presentation College of Computer Studies | May 2023

- This award was given to me after the event called "SIRF" or Southern Innovation Research Foundation. I was tasked to deliver what is my research all about and the results and conclusion that I was able to gather during the study.

Second Place Best Research Poster College of Computer Studies | May 2023

- This award was given to me after the event called "SIRF" or Southern Innovation Research Foundation. The presentors and not just tasked to deliver the thesis project. But also to showcase designing skills by creating a poster. Fortunately I was able to place second out of 16 participants.
