Skills and Tools

- Web Design (Figma and Adobe XD)
- Front End Development (HTML, CSS, JS, TS, React, Bootstrap and Tailwind)
- Back End Development (PHP, Node JS, Express JS, FIrebase and MongoDB)
- Mobile Development (React Native and Native Wind)
- API Development and Testing (Postman, Node JS, Express JS, Databases)

Accomplishments

Silver Award Best Research Study   College of Computer Studies in USPF| December 2022
- This award was given to me after our final thesis defense, it shows that my final project entitled DIGIBRI was able to convice and satisfy the panel.

Bronze Award Best Research Logo   College of Computer Studies| December 2022
- This award was given to me after our final thesis defense as the system / application has one of the best and unique logo's presented.

Winner Best Podium Presentation   College of Computer Studies| May 2023
- This award was given to me after the event called "SIRF" or Southern Innovation Research Foundation. I was tasked to deliver what is my research all about and the results and conclusion that I was able to gather during the study.

Second Place Best Research Poster   College of Computer Studies| May 2023
- This award was given to me after the event called "SIRF" or Souther Innovation Research Foundation. The presentors and not just tasked to deliver and present the thesis project. But also to showcase designing skills by creating a Poster. And fortunately I was able to place second out of 16 participants.
